The R&D Quality Management

- Rhuang39

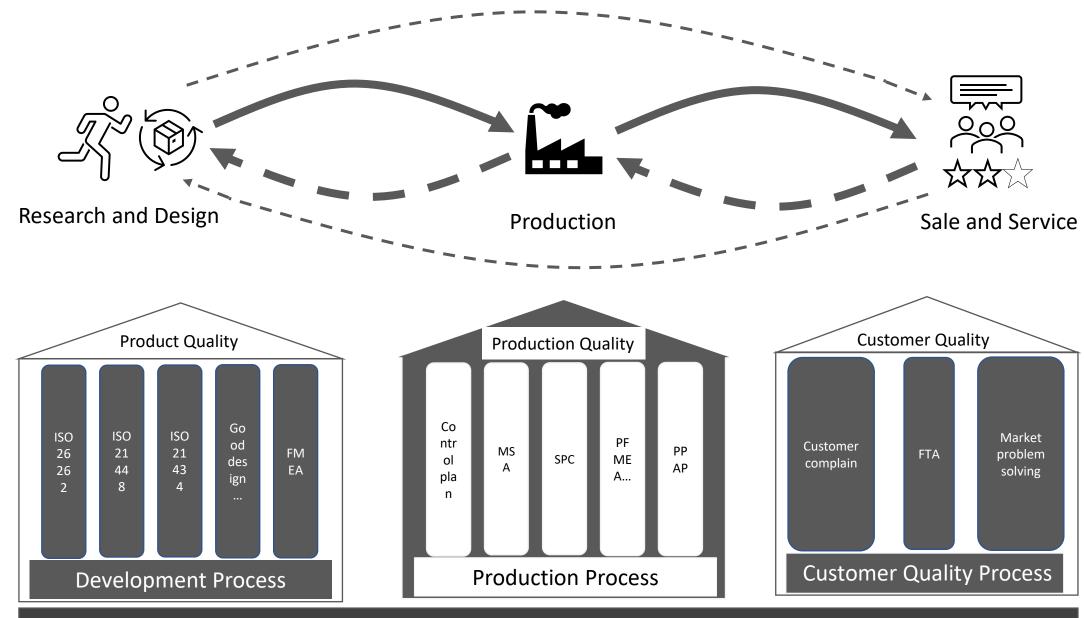

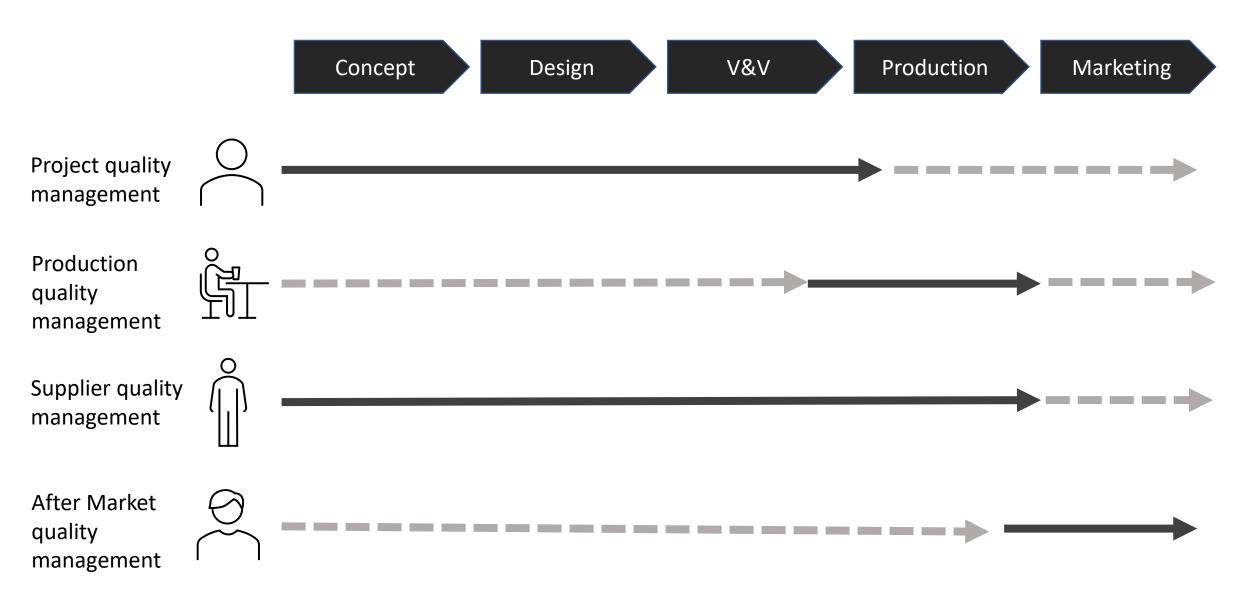

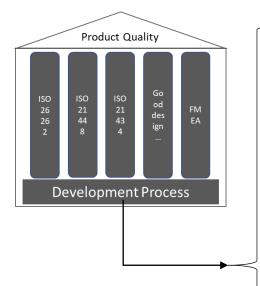

□ Item Overview

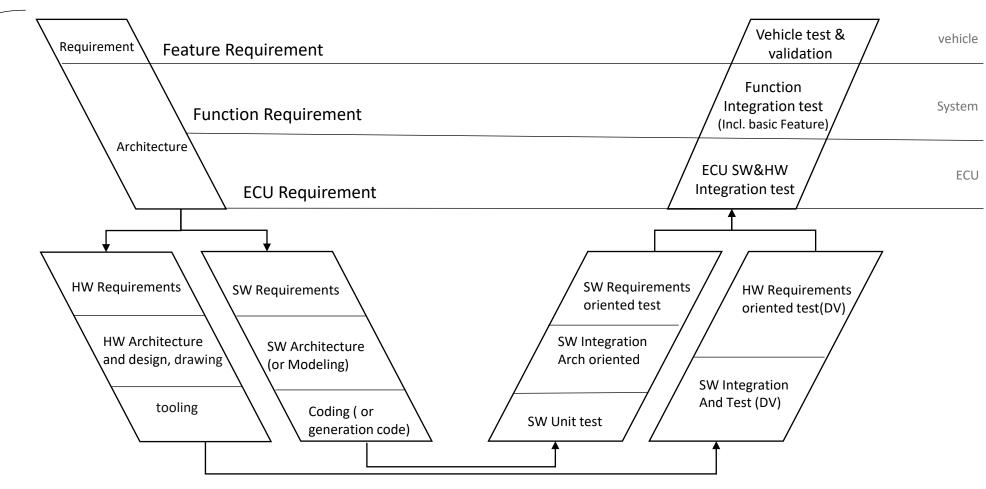

□ Item Overview

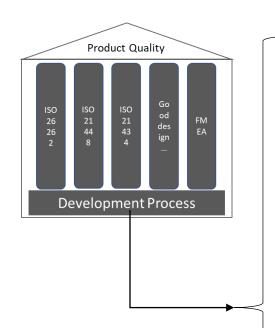

Define Development Process

- Milestone
- Product Maturity
- Workstream
- Work products
- Metrics / Monitor
- Method
- Template
- Roles
- Responsible & Authority

• The 'SW requirements-oriented test' has some overlaps with "ECU SW/HW integration test", usually, after SW/HW integrated, the SW Requirements-oriented test would go on.

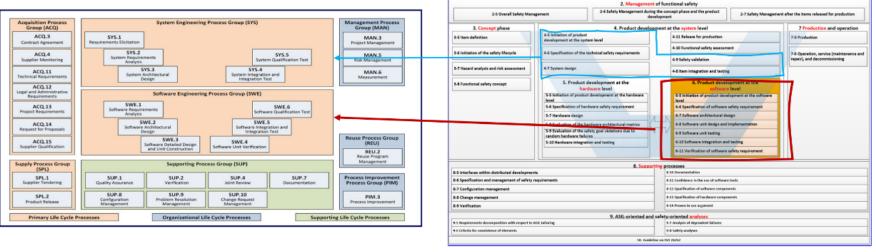

- Functional safety ISO 26262
- Cybersecurity ISO 21434

These two standard shall be included in the scope of development processes

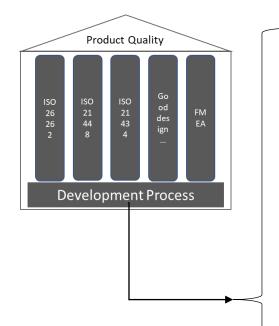

- ❖ At "What" level, the process definition should consider the requirements from functional safety and cybersecurity.
- At "How" level, the methods, template and specific outputs could follow the requirements of Functional safety and cybersecurity separately.

Framework Overview

1. Vocabulary

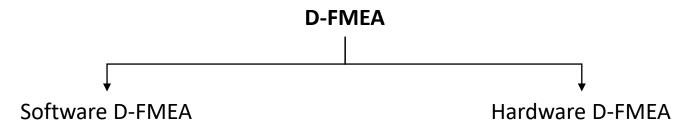

Automotive SPICE ISO26262

Use of Quality tools

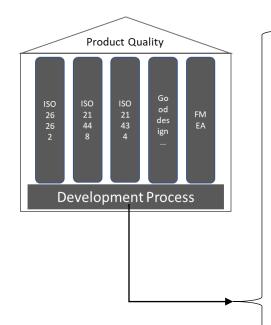

> D-FMEA

- Design failure module and effect analysis (DFMEA) is a systematic method used to detect the potential failure and mitigate risk in advance
- There is a little differentiated between Software DFMEA and Hardware DFMEA

| Step No. | Item |
|----------|-------------------|
| 1 | Prepare |
| 2 | System scope |
| 3 | Function analysis |
| 4 | Failure analysis |
| 5 | Risk analysis |
| 6 | Measure |
| 7 | Documentation |

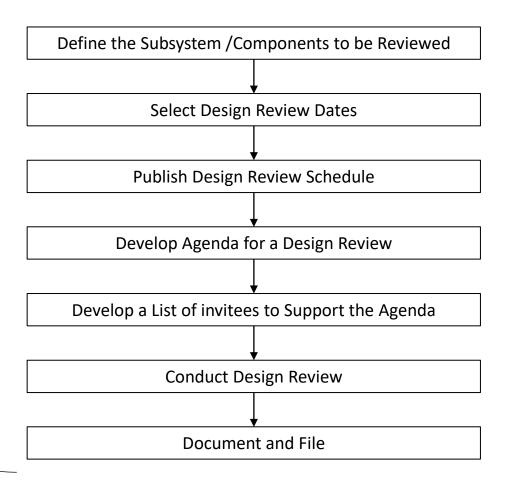

| Step No. | Item |

| 2 | System scope |
| 3 | Structure analysis |
| 4 | Function analysis |
| 5 | Failure analysis |
| 6 | Risk analysis |
| 7 | Measure |
| 8 | Documentation |

Use of Quality tools

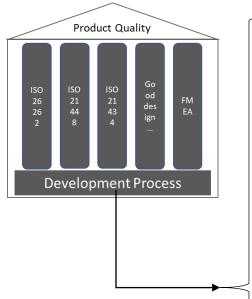

Design Review

• A design review is a meeting of a cross-functional group of technical people assembled to probe and demonstrate the thoroughness and competency of a proposed design's ability to maximize Ford customers' perceived value..

Design Review is:

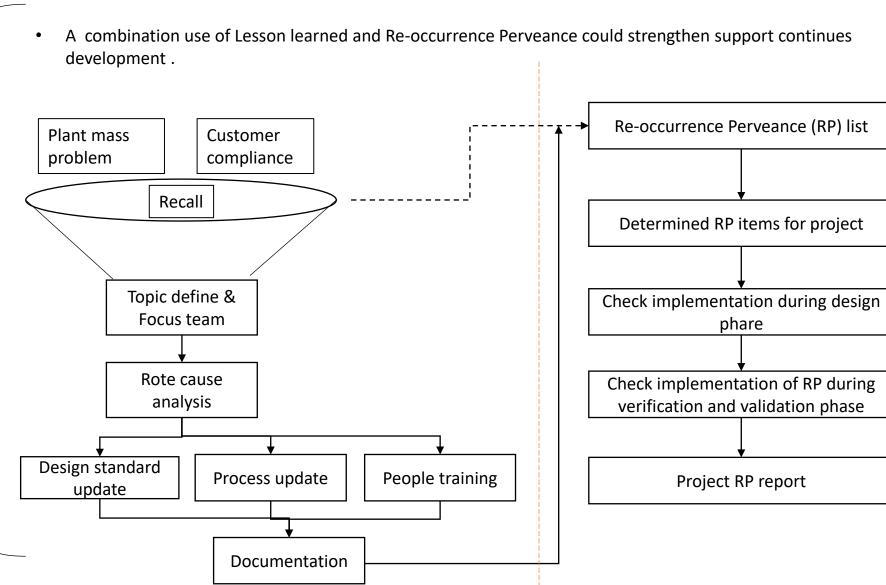

- 80% technical focus/20% program status
- A peer review
- Focused on technical fundamentals
- Scheduled on a regular basis
- Using existing documents
- An honest exchange of ideas
- Learning experience
- A collaborative effort
- Informal
- A sharing experience ("fresh eyes")
- As detailed as is required
- A positive experience
